

Quality Management Solutions

Quality Innovation, Inc. (Qi²) offers our government and private sector clients a wide range of proven solutions. We provide clinical and non-clinical healthcare services, information technology services, and consulting. We help government agencies to establish, measure, track and improve internal processes. With the increased complexity of managing organizations in today's environment we specialize in providing an integrated approach which takes full advantage of organizational strengths and builds consistency while minimizing costs. We can also help other contractors to document their business processes and achieve **certification of the management practices to internationally recognized Standards**. Let Qi² help your organization achieve excellence.

How Can We Help?

At Quality Innovation, Inc. we have decades of experience guiding businesses through the process of achieving certification to the requirements of International Standards. Your clients demand excellence — let us help you get there.

Our scope of Quality Management services:

- Quality Management Systems
- Environmental Management Systems
- IT Service Management Systems
- Information Security Management Systems
- Expert Witness Testimony for Quality Management-related Issues

Sustained success is achieved:

When an organization attracts and retains the confidence of customers and other interested parties. Every aspect of customer interaction provides an opportunity to create more value for the customer. Understanding current and future needs of customers and other interested parties contributes to sustained success of the organization.
