

Quality in everything we do,
Innovation as our added value!

Quality Innovation

Non-Clinical Healthcare Solutions

Quality Innovation, Inc. (Qi²) understands our teams' indirect contact with patients is directly vested in the success of their care.

Case Mgmt. / Care Coordination Services

Through our MCM and CCP programs we are serving soldiers, and their families, from all branches in various locations throughout the United States. Our programs assist soldiers, and their families, reach physical, social, financial, and deployment readiness. **Team Qi² provides ARNG MCM services in more states than any other company combined.**

Innovative Program Management

Customer collaboration – finding solutions to problems that are innovative and advantageous within a fiscally constrained environment. We coordinate with all stakeholders – from service members to company commanders to Chiefs of Staff.

Experience - Our program management staff has over 10 years' experience with military case management and care coordination. Because of our experiences, we have a thorough knowledge of the programs' nuances and complexities. This allows us to promote and effect fine-tuning of system processes on an individual employee level as well as to strategic objectives.

Knowledge - We have extensive knowledge of current legislation, policies, and regulations affecting our clients. We actively research and maintain all pertinent information that applies to our current contracts.

Client Advocates - We passionately work with clients to meet their needs. We coordinate between government entities (local, state, and national), private institutions, and other community members that serve our client base.

About Us

Established in 2000, Team Qi² is a Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)
